

How to wear a shoe tag

- 1.) Detach the shoe tag from the chest bib portion of the tag.
- 2.) Insert the right shoelace from the right shoe up through the shoe tag hole and tie your shoe.
- 3.) Allow the shoe tag to hang down along the outside of the right foot.

The shoe tag is ultra light weight and significantly improves the read rates for chip start races.

The Tortoise & Hare Timer will have a convenient container at the end of the finish line chute if you wish to dispose of your shoe tag immediately after the race.
